**ATTENTION-IMPORTANT MODIFICATION NUMBERING INFORMATION:**

Bilateral Modifications issued by the Department of Defense agencies are no longer assigned an official "P0000" number until the contracting officer has released/signed the modification. This change is a result of the Defense Finance and Accounting Service (DFAS) Business Management Modernization Program (BMMP) requirement that modifications are to be released in numerical order without skipping any "P0000" numbers.

To accommodate this change the Standard Procurement System (SPS) now assigns a unique Modification Control Number (MCN) to each modification when it is created. The MCN was established for contractors to track the approved version of the modification. This number, unique to the modification, is included on both the draft modification and the released/signed modification. The MCN can be found in Block 14 of all modifications. The use of the MCNs ensures DFAS only receives modifications in numerical order.

## CLAUSES INCORPORATED BY FULL TEXT

**5252.211-9504 LEVEL OF EFFORT (TIME-AND-MATERIALS AND LABOR-HOUR CONTRACTS)  
(NOV 1999)**

(a) Task orders shall establish an anticipated level of effort (projected man-hours) for each CLIN or SLIN and a Ceiling Price for that task order. The ceiling price shall be the sum of: (1) the projected prime Contractor hours multiplied by the appropriate hourly rates prescribed in the schedule; and (2) the estimated amount of materials priced in accordance with the clause entitled, Payments Under Time-and-Materials and Labor-Hour Contracts, including estimated subcontract costs calculated in the same manner as the prime Contractor using the subcontract price schedules.

(b) The Contractor may use any combination of hours of labor categories listed in any single task order, if necessary to perform that task order. Labor categories not shown may not be used without a task order modification. The Contractor may use any combination of prime Contractor labor, subcontractor labor, and other material expense in accomplishing the statement of work within the limits expressed below.

(c) The NAVAIR clause 5252.232-9507, "Limitation of Funds - Time and Material and Labor-Hour Contracts", applies independently to each task order under this contract and nothing in this provision amends the rights or responsibilities of the parties hereto under that clause. In addition, the notifications required by this clause are separate and distinct from any specified in the NAVAIR 5252.232-9507.

(d) The Contractor shall notify the Procuring Contracting Officer immediately in writing whenever it has reason to believe that:

(1) The level of effort the Contractor expects to incur under any order in the next 60 days, when added to the level of effort previously expended in the performance of that order, will exceed seventy-five (75%) percent of the level of effort established for that order; or

(2) The level of effort required to perform a particular order will be greater than the level of effort established for that order.

As part of the notification, the Contractor shall provide the Contracting Officer a revised estimate of the level of effort required to perform the order. As part of the notification, the Contractor also shall submit any proposal for adjustment to the ceiling price that it deems would be equitable if the Government were to increase the level of effort as proposed by the Contractor. Any such upward adjustment shall be prospective only (i.e. will apply only to effort expended after a modification (if any) is issued.

(e) Within thirty days after completion of the work under each task order, the Contractor shall submit the following information directly, in writing, to the ordering officer, the COR and the Defense Contract Audit Agency office to which vouchers are submitted.

(1) The total number of man-hours of direct labor, including subcontract labor, expended and a breakdown of this total showing the number of man-hours expended in each CLIN or SLIN listed in the task order schedule, including the identification of the key employees utilized.

(2) The total labor price plus estimated total allowable material cost incurred under the task order.

(3) In the case of a cost underrun, the amount by which the task order amount may be reduced to recover excess funds.

(f) In the event that less than one hundred (100%) percent of the established level of effort for a task order is expended, the Government may require continued performance subject to the remaining obligation.

## Section C - Descriptions and Specifications

**DESCRIPTION AND SPECIFICATION**  
**CONDITIONS OF CONTRACT**

(a) Tasks hereunder which must be performed outside the Continental United States shall be subject to the provisions of OPNAV Instruction 5720.3D, and all other appropriate regulations, orders and instructions of the Secretary of the Navy or the Department of the Navy. The Contractor shall instruct each representative to familiarize himself with the provisions contained in the aforementioned documents. Requests for certificates of identification and other credentials for Contractor representatives shall be made in accordance with said documents.

(b) The Government shall have the right hereunder to order delivery of services for performance of tasks in areas which have been designated by the Department of Defense as subject to hostile fire, or at locations where the Contractor representative is subject to actual hostile fire as established and defined by current Department of Defense Directives. In the event of a deployment to a hostile or danger area that has been designated as such by the Department of State, compensation for danger pay will be in accordance with the rates and time periods established in the Department of State Index and applied to the salary of the representative.

(c) Contractor representatives assigned to perform tasks hereunder at locations outside the Continental United States shall be accredited to the United States Navy, shall be given proper credentials and identification cards and shall be subject to such regulations as have been or may hereafter be issued by the United States Government regarding Contractor representatives serving with the United States Armed Forces in foreign theaters of operation.

(vi) Quarters furnished while embarked in a naval vessel shall be considered adequate and available.

(f) The Contractor shall have the right to remove or replace his personnel assigned to perform tasks hereunder pursuant to any order for services and to substitute other equally qualified personnel in lieu thereof, provided that such removal or replacement shall not be due cause for a break in services being furnished or additional costs to the Government and that such removal or replacement shall have been brought to the attention of the Commanding Officer, NATEC. Any removals or replacements for the convenience of the Contractor, including time of travel and training costs for replacement personnel, shall be at the Contractor's expense. The Contractor shall notify the Commanding Officer, NATEC approximately thirty (30) days prior to such change, providing the new employee's name, security clearance, and technical qualifications, so that orderly processing of task description letter and related security and administrative details may be accomplished. Removals and replacements of Contractor personnel shall be at the expense of the Contractor except when such removal or replacement is for reasons as follows:

Any instance of unsatisfactory performance that results in removal of the employee, the contractor shall replace the employee at the current man-day rate in this contract. Such removal will not entitle the Contractor to reimbursement for travel or time of travel connected with such removal.

(i) Upon finding of unsatisfactory performance of a task resulting in removal of personnel, the contractor will have fifteen (15) days to submit a replacement candidate to the Contracting Officer at the existing man-day rate, and thirty (30) days to resume performance of task, otherwise, the Government will terminate for default.

Reimbursement for these expenses will be at actual cost not to exceed the limitations in the Federal Joint Travel Regulations (FJTR). In the event of conflicting practices or limitations of reimbursement, this contract will be the prevailing document. Section B of this contract contains the estimated reimbursable expenses and maximum amounts for relocation expenses, including maximum amounts for on- and off-contract travel and household moves. However, on-contract and off-contract costs will be allowed only one time each, at the beginning and end of the contract respectively, and only if such costs were proposed; otherwise all on/off-contract costs are unallowable.

The contractor agrees to use its best effort to perform the work specified in the Schedule or Task Orders, and all obligations under this contract, within the ceiling price.

(b) The Schedule or individual Task Orders specify the amounts presently available for payment by the Government and allotted to the contract or individual Task Orders, the items covered, and the period of performance it is estimated the allotted amounts will cover. The parties contemplate that the Government will allot additional funds incrementally to the contract or individual Task Orders up to the full ceiling price. (e) If, after notification, additional funds are not allotted by the end of the period specified in the Schedule or individual Task Order, or another agreed upon date, upon the contractor's written request the Contracting Officer will terminate the contract or individual Task Order on that date, in accordance with the provisions of the Termination clause of this contract. If the contractor estimates that the funds available will allow it to continued to discharge its obligations beyond that date, it may specify a later date in its request, and the Contracting Officer may terminate the contract or individual Task Order on that later date.

(f) Except as required by other provisions of this contract, specifically citing and stated to be an exception of this clause -

(1) The Government is not obligated to reimburse the contractor for costs incurred in excess of the total amount allotted by the Government to this contract; and

(2) The contractor is not obligated to continue performance under this contract or individual Task Orders (including actions under the Termination clause of this contract), or otherwise incur costs in excess of the amount then allotted to the contract or Task Order by the Government, until the Contracting Officer notifies the contractor in

writing that the amount allotted by the Government has been increased and specifies an increased amount, which shall then constitute the total amount allotted by the Government to the contract or Task Order.

(g) The ceiling price shall be increased in accordance with the provisions of FAR clause 52.232-7, "Payments Under Time-and-Materials and Labor-Hour Contracts".

(h) No notice, communication, or representation in any form other than specified in subparagraph (f)(2) above, or from any person other than the Contracting Officer, shall affect the amount allotted by the government to this contract or an individual Task Order. In the absence of the specified notice, the Government is not obligated to reimburse the contractor for any costs in excess of the total amount allotted by the Government to this contract, whether incurred during the course of the contract or as a result of termination.

(i) When and to the extent the amount allotted by the Government to the contract or an individual Task Order is increased, any costs the contractor incurs before the increase that are in excess of the amount previously allotted by the Government shall be allowable to the same extent as if incurred afterward, unless the Contracting Officer issues a termination or other notice and directs that the increase is solely to cover termination or other specified expenses.

(j) Change orders shall not be considered an authorization to exceed the amount allotted by the Government specified in the Schedule or individual Task Order, unless they contain a statement increasing the amount allotted.

(k) Nothing in this clause shall affect the right of the Government to terminate this contract or an individual Task Order. If this contract or a Task Order is terminated, the Government and the contractor shall negotiate an equitable distribution of all property produced or purchased under the contract or Task Order, based upon the share of costs incurred by each.

#### **5252.237-9502 COMPENSATION - TIME AND MATERIALS (TASK ORDERS) (SERVICES) (SEP 1999)**

(a) Subject to the FAR Clause 52.232-7 "Payments" clause of this contract, the Government will pay the contractor for the performance of task orders issued under this contract the amounts determined to be payable in accordance with the hourly rate set forth in Section B and the amounts determined to be payable in accordance with paragraphs (b) and (c) of this clause. The hourly rates set forth cover all expenses, including wages, overhead, general and administrative expense, profit, subsistence, prorated vacation leave, sick leave, and applicable insurance of all kinds, excluding any and all travel costs which are reimbursable in accordance with paragraph (c) below. If overtime rates are specified in Section B, the contractor will be paid for overtime work in accordance with such overtime rates only to the extent the overtime is approved in advance by the Procuring Contracting Officer (PCO). If no rate is set forth in Section B and overtime work is approved in advance by the PCO, the contractor and the PCO will negotiate rates for such overtime in accordance with paragraph (a)(3) of the "Payments" clause of the contract. The amount payable to the contractor shall be computed by multiplying the appropriate hourly rates set forth by the number of direct labor hours performed in accordance with paragraph (a)(1) of the "Payments" clause of this contract. Payment for the performance of task orders shall be made in accordance with the rates specified in Section B with adjustments as appropriate under paragraph (b) for employees performing Uncompensated Overtime as defined in FAR Clause 52.237-10, "Identification of Uncompensated Overtime".

(b) For individuals performing under an uncompensated overtime system, the amount billed is limited to the uncompensated overtime rate as defined in FAR Clause 52.237-10. All hours shall be burdened and shall be in the base for allocation of overhead and general and administration expenses.

(c) Travel Costs. The contractor shall be reimbursed for travel costs in accordance with FAR 31.205-46 as limited by the Joint Travel Regulations, Volume II and the following:

(1) Where official company travel can reasonably be planned in advance so as to take advantage of available discounted standard or coach airfares, any expenses in excess of those discounted fares are to be considered as, and segregated as unallowable costs; and

(2) Travel made for personnel convenience, including daily travel to and from work, shall not be reimbursed hereunder.

(d) Material Costs and Other Direct Costs. The contractor shall be reimbursed for other direct costs (ODC) including material costs in accordance with Section B and paragraph (b) of the "Payments" clause of this contract. Other direct costs including material costs to be reimbursed under this contract shall be included in each order.

(e) **Maximum Ordering.** The Government shall not be obligated to pay the contractor any amount in excess of the maximum task order price set forth in any task order issued under this contract. The contractor shall not be obligated to continue performance or to incur costs under any task order if to do so would exceed the maximum task order price set forth in the task order unless the contractor has been notified in writing by the Procuring Contracting Officer (PCO) that the maximum task order price for the task order concerned has been increased in accordance with paragraph (d) of the "Payments" clause of this contract. Pursuant to paragraph (c) of the "Payments" clause, the contractor shall notify the PCO in writing if the contractor has reason to believe the hourly rate payments, travel costs and materials costs which will accrue in the performance of the task order concerned will exceed the maximum task order price set forth in the task order, or when added to all other payments and costs previously accrued, will exceed the maximum ordering price set forth in the contract. If for any other reason the contractor believes that the maximum task order price set forth in any task order should be increased, the contractor shall promptly so notify the PCO in writing. The maximum ordering price of any task order may be increased by the PCO, in his/her discretion, at any time during the period covered by this contract. If the contractor has reason to believe that the total cost to the Government for the work called for in any task order will be substantially less than the maximum order price specified therein, the contractor shall promptly so notify the PCO in writing. The PCO may, based upon such notification, decrease the ceiling price of the task order concerned. Any increase or decrease in the maximum order price of any task order shall be set forth in a modification to the task order.

(f) The term "ceiling price" wherever set forth in the "Payments" clause will be read as "maximum" and, when used to refer to Contract Ceiling Price shall be read as Contract Maximum Ordering Price/Amount. When used in conjunction with task order, "ceiling" shall be construed "maximum" task order amount or the "maximum" amount per cost category such as travel, labor, and other direct costs as appropriate.
